

Documented effect

Cabanin® CSD

Premix with high antioxidant effect

Cabanin CSD contains a high amount of polyphenols known for antioxidative properties. Cabanin CSD can be used as an effective antioxidant replacer above the standard minimum requirement for vitamin E, and may improve growth and feed conversion rate in a higher application rate. The antioxidant effect is also proven in blood and meat through biomarkers.

Cabanin CSD contains selected parts from:

- Citrus
- Blackcurrant
- Grape
- Chestnut

Benefits and effects:

- Cost effective vitamin E antioxidant replacer
- High antioxidant activity
- Supports average daily gain and feed conversion ratio
- Performance enhancer
- Antioxidants works on cell-level

Application:

To optimize production profitability administer 0.5 -1.0 kg per ton feed, depending on animal species. Can replace 50 % of vitamin E above standard minimum requirements for calves when included in the diet.

As vitamin-E antioxidant replacement, follow application rate below:

| Vitamin E | Cabanin CSD application rate for vitamin E replacement |
|-------------------------------|--|
| 1 kg vitamin E 100% oil | 2 kg Cabanin CSD |
| 1 kg vitamin E 50% adsorbate | 1 kg Cabanin CSD |
| 1 kg natural alpha-tocopherol | 2.5 kg Cabanin CSD |

Packaging:

25 kg bags – 40 bags per pallet

Patent:

Cabanin® CSD is covered by European patent: No. EP 1323354
