

Green Selenium Bolus™

Trace element bolus containing selenium for cattle

Green Selenium Bolus is a sustained release trace element bolus for cattle, providing grazing animals with a continuous and regular supply of selenium and other important trace elements and vitamins over a period of 240 days (8 months).

Green Selenium Bolus contains:

Daily supply from 2 boluses in 240 days

Selenium	2.1 mg
Copper	135 mg
Cobalt	2.0 mg
Iodine	4.4 mg
Manganese	69 mg
Zinc	115 mg
Vitamin A	3725 I.E.
Vitamin D3	745 I.E.
Vitamin E	6.4 I.E.

Benefits and effect:

- Releases a constant dose of trace elements over 8 months
- Sufficient trace elements supply
- Increases animal general health
- No dosing mistakes – the cow gets the intended amount
- Easy to administer with a bolus applicator

Consumption:

- 2 boluses per animal

Packaging:

- 20 boluses per case
- 5 cases per box

Application:

Administer Green Selenium Bolus with a twin-bolus applicator, providing the animal with two boluses at once. Green Selenium Bolus is slowly released over 8 months, and leaves no metal residues in the rumen. Should not be administered for cattle below 150 kg. Simultaneous supplementation of additives with a maximum content from other sources to those incorporated in a bolus, if applicable, shall be avoided.
