

# Bio Bolus SeCu™

## Dietetic trace element bolus containing selenium and copper for organic cattle

Bio Bolus SeCu is a slow release trace element bolus, which over a period of 180 days daily provides grazing and forage fed cattle with important trace elements, including selenium and copper. Bio Bolus SeCu can also be used as supplement to other mineral supply, or for cattle receiving roughage without additional supply of trace elements.

### Bio Bolus SeCu contains:

#### Daily supply from 1 bolus in 180 days

Selenium	1.2 mg
Copper	140 mg
Cobalt	2.7 mg
Iodine	23 mg

### Consumption:

1 bolus per animal.

### Packaging:

- 10 boli per case
- 8 cases per box

### Benefits and effect:

- Releases a constant dose of trace elements over 6 months
- Sufficient selenium and copper supply
- Increases animal general health
- No dosing mistakes – The cow gets the intended amount
- Easy to administer with a bolus applicator
- Can be used in organic production

*Bio Bolus SeCu can be used in organic production in accordance with regulation (EU) 2018/848.*

### Application:

Bio Bolus SeCu is administered with a bolus applicator. For dry cows, administer one bolus 2 months before calving. Bio Bolus SeCu is slowly released over 6 months, and leaves no metal residues in the rumen. Should not be administered for cattle below 400 kg. Before using, it is recommended to have advice from a veterinarian or nutritionist concerning: 1) the balance of trace elements in the daily ration; 2) the trace elements status of the herd.
