

Documented effect

Cabanin® CSD

Premix with high antioxidant effect

Cabanin® CSD contains a high amount of polyphenols known for antioxidative properties. Cabanin® CSD can be used as an effective antioxidant replacer above the standard minimum requirement for vitamin E, and may improve performance and milk yield in a higher application rate.

Cabanin® CSD contains:

Selected parts from:

- Citrus
- Blackcurrant
- Grape
- Chestnut

Benefits and effects:

- Cost effective vitamin E antioxidant replacer
- High antioxidant activity
- Supports daily gain and milk yield
- Antioxidants work on cell level
- May improve protein utilization in ruminants

Application:

Can in cattle feed replace vitamin E above minimum NRC standard requirements. 1 kg Cabanin® CSD can replace 1 kg Vitamin E 50% adsorbate (all rac.) To optimize production profitability, administer 3 – 5 g per cow per day or 1 – 3 g per calf per day

Packaging:

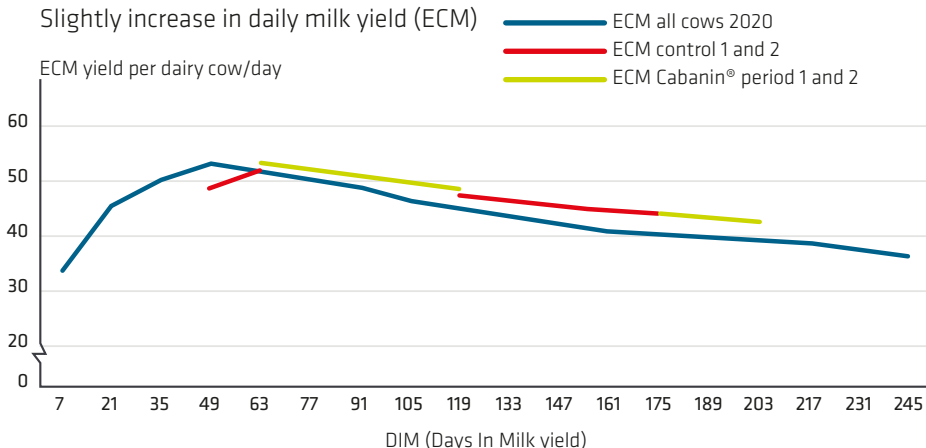

- 25 kg bags – 40 bags per pallet

Patent:

Cabanin® CSD is covered by European patent

Danish farm trial with 1 g Cabanin® CSD, 2021

Slightly increase in daily milk yield (ECM)
