

Cabanin® Green

Botanical-based organic product with high antioxidant effect

Cabanin® Green contains selected natural organic ingredients known for antioxidant properties (polyphenols). Cabanin® Green can be used as an effective antioxidant replacement above the recommended minimum dosage of vitamin E in cattle feed and at higher dosages improve production performance / milk yield.

Cabanin® Green contains:

Selected parts from:

- Aronia
- Grape
- Chestnut
- Rosemary
- Carob
- Olives

Benefits and effects:

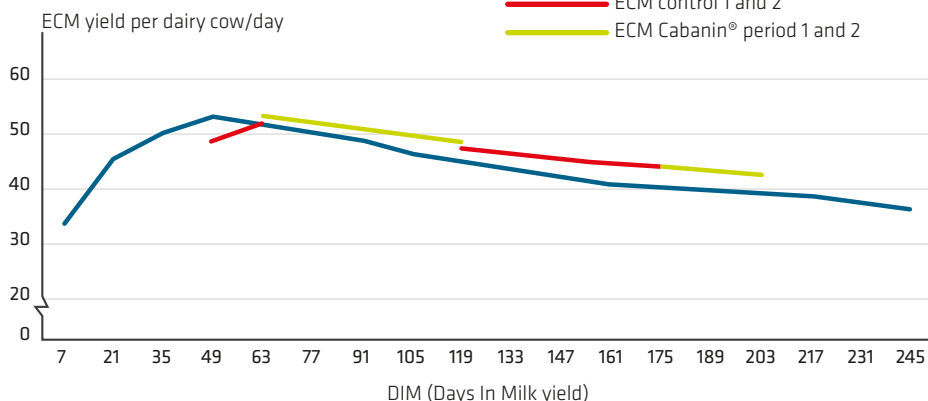

- High antioxidant activity
- Profitably vitamin E antioxidant replacement
- Performance enhancer
- May improve protein utilization in ruminants
- Can be used in organic certified feed for animals

Application:

Can replace vitamin E above minimum NRC standard requirements for cattle when included in the feed. 1 kg Cabanin® Green can replace 1 kg Vitamin E 50% adsorbate (all rac.) To optimize production profitability, administer 3-5 g per cow per day or 1-3 g per calf per day.

Danish farm trial with 1 g Cabanin® CSD, 2021

Slightly increase in daily milk yield (ECM)

Packaging:

- 25 kg bags – 40 bags per pallet or in big bags

Patent:

Cabanin® products are covered by European patent.
