

Documented effect

Cabanin® CSD

Premix with high antioxidant effect

Cabanin® CSD contains a high number of polyphenols known for antioxidative properties. Cabanin® CSD can be used as an effective antioxidant replacement above the minimum standard requirement for vitamin E and C and can improve performance and feed conversion ratio. The antioxidant effect is proven in blood and meat through biomarkers.

Cabanin® CSD contains:

Selected parts from:

- Grape
- Citrus
- Blackcurrant
- Chestnut

Benefits and effects:

- Cost effective vitamin E and C antioxidant replacement
- High antioxidant activity
- Improves weight gain and feed conversion ratio
- Ameliorates fish health at stress condition
- Antioxidants work on cell-level
- Improves meat quality at storage

Application:

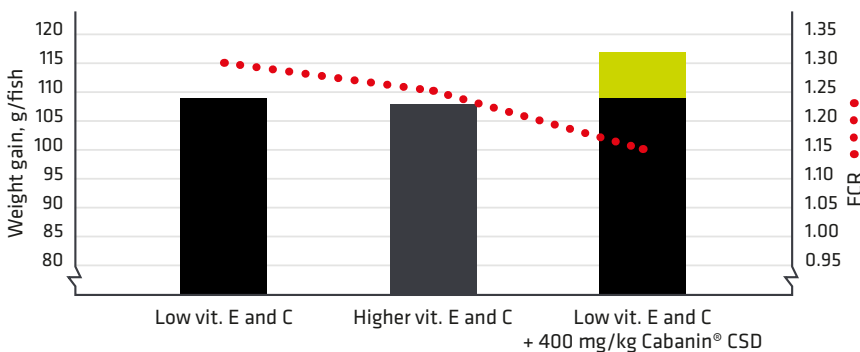

Can replace vitamin E and C above minimum standard requirements for fish and shrimp when included in the diet. 1 kg Cabanin® CSD can replace 1 kg vitamin E 50% adsorbate (all rac.) and vitamin C.

Packaging:

- 25 kg bags – 40 bags per pallet
- Big bags

University trial results with Cabanin® CSD, 2021

Performance results with Tilapia, pre-growth feed

Patent:

Cabanin® CSD is covered by European patent
