

AlfaVita™

Natural vitamin E with selenium

AlfaVita is a complementary feed consisting of 100% natural biological active vitamin E of RRR-alpha-tocopherol extracted from sun flower oil and soya oil. Additionally, AlfaVita contains selenium, which interacts with vitamin E, thus having an enhanced effect. AlfaVita is a liquid water-soluble resolution, and is suitable for use directly in drinking water or blended into the feed.

AlfaVita contains:

- 67000 mg RRR-alpha-tocopherol, equivalent to 100.000 I.U. vitamin E
- 50 mg selenium from sodium selenite

Benefits and effect:

- Improved reproduction
- Strengthens the immune system
- Transfer of vitamin E in the milk, providing strong piglets at weaning
- Selenium provides increased vitality to piglets
- High vitamin E utilization compared to synthetic vitamin E

Application:

- Piglets: 400-500 ml per ton of complete feed
- Sows: In lactation feed: 400-500 ml per ton of complete feed. As top-dressing: 5 ml daily per sow from 8 days before farrowing and the entire lactation period.

Consumption:

5 litres of AlfaVita are enough for 2.5 - 3 tons of complete feed.

Packaging:

- 5 litre cans
