

Documented effect

Cabanin® CSD

Premix with high antioxidant effect

Cabanin® CSD contains a high amount of polyphenols known for antioxidative properties. Cabanin® CSD can be used as an effective antioxidant replacer above the standard minimum requirement for vitamin E, and may improve growth and feed conversion rate in a higher application rate. The antioxidant effect is also proven in blood and meat through biomarkers.

Cabanin® CSD contains:

- Selected parts from: Citrus, blackcurrant, grape and chestnut

Benefits and effects:

- Cost effective vitamin E antioxidant replacer
- High antioxidant activity
- Supports average daily gain and feed conversion ratio
- Performance enhancer
- Antioxidants works on cell-level

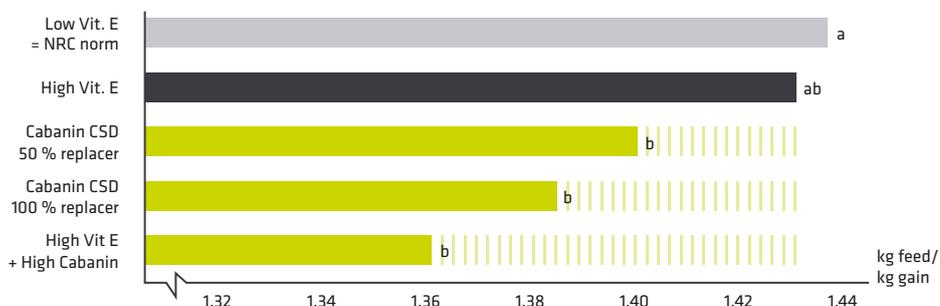

Application:

To optimize production profitability, administer 0.1 - 1.0 kg per ton feed, depending on animal species. Can replace vitamin E above standard minimum requirements for poultry (15 ppm) when included in the diet.

Packaging:

25 kg bags or big bags

Overall Feed Conversion Ratio (kg feed/kg gain)
