

Benefits
for all

InflaMove®

A cost-effective natural performance enhancer

InflaMove® is a premix with selected botanical ingredients for supporting healthy gut function. It is a concentrated broad-spectrum natural performance enhancer for inclusion in feed for animals. InflaMove® can be used in premixes as well as in complete, expanded or pelleted feeds produced by feed manufacturers.

InflaMove® contains:

- Selected botanical ingredients from herbs, seeds and fruit for supporting a beneficial gut function
- The herbal flavouring components increase early feed intake in young animals

Benefits and effect:

- 15 % higher feed intake in young broilers first week
- Reduce inflammatory stress
- Beneficial change in gut microbiota
- Supported nutrient utilisation
- Beneficial growth conditions & productivity

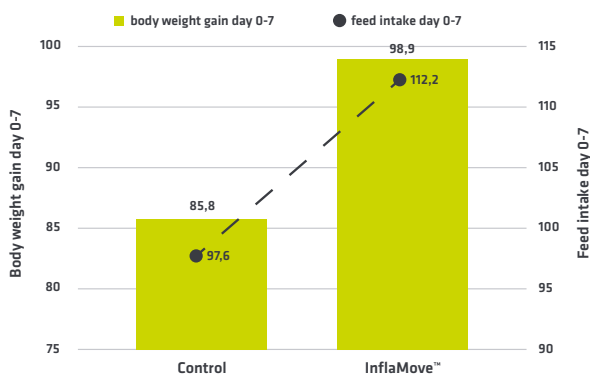

Application:

- 300 g. per 1,000 kg complete feed
- Other animals: 300-400 g. per 1,000 kg complete feed depending on type of animal

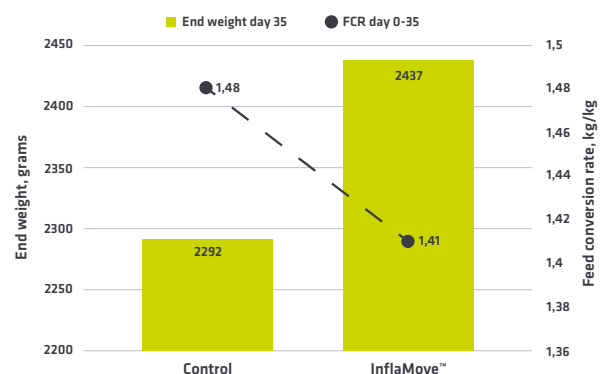

Packaging:

- 15 kg bags

Increasing the early feed intake – keeping the FCR at the same level

15% higher feed intake and weight gain in broilers first week boost end weight.

Data from university trial: 6 % weight gain, 4 % lower FCR and 8 % more breast meat.
