

NoxiFerm™

Natural performance enhancer

NoxiFerm™ is a natural growth enhancer to be mixed in feed for poultry and other monogastric animals. NoxiFerm™ is a unique blend of sodium gluconate and natural flavouring compounds of botanical origin known for antioxidative properties.

NoxiFerm™ contains:

- Sodium gluconate, sodium salt of d-gluconic acid
- Unique mixture of flavouring compounds known for antioxidative properties, which is more than 3 times as potent as antioxidant, than pure synthetic vitamin E.

Trial results confirm the effect of NoxiFerm™:

University trials with broilers document a significant optimization of production results by using NoxiFerm

Benefits and effect:

- Fosters production of short chain fatty acids (SCFA) in the large intestine
- Optimises intestinal villous height and crypt depth
- Supports the natural defence
- Reduces heat stress problems
- Supports high feed intake in hot environments

Application:

Broilers: • Until day 21

- From day 22 to slaughter

Layers

Turkeys

2.0 kg / 1000 kg complete feed

1.0 - 2.0 kg / 1000 kg complete feed

2.5 kg / 1000 kg complete feed

2.0 kg / 1000 kg complete feed

Consumption:

1.0 - 2.5 kg per 1000 kg of feed, depending on animal species

Packaging:

- 25 kg bags
- 1000 kg big bags
