ReviLyt®

Dietetic electrolyte product with pectins and antioxidants

ReviLyt is a dietetic complementary feed which stabilizes and restores the fluid and electrolyte balance in animals in case of risk of, during periods of, or recovery from digestive disturbance (diarrhoea). ReviLyt contains the important electrolyte salts Na+, K+, and Cl-,and is composed based on the American SID concept (Strong Ion Difference)to support quick and efficient rehydration. ReviLyt can be used both in cow's milk, milk replacer and water.

ReviLyt contents:

- The electrolytes Na^+, K^+, Cl^- which re-stablish the electrolyte balance
- Pectin substances which protect the intestinal wall against undesirable microorganisms
- Alkaline buffer stabilizes acid-base balance in the blood
- Dextrose ensures easily absorbable energy and supports absorption of Na+
- Botanical antioxidants (Polyphenols) to support the natural resistance

Content	Recommend. mmol/L	ReviLyt mmol/L
Na^+	70-145	115
K^+	20-30	20
Cl^-	50-100	64
SID	60-80	71

Benefits and effects:

- Adds an optimum supplement of essential electrolytes
- Re-establish the intestinal microflora
- Protects the intestinal wall against undesirable microorgansims
- Stabilizes the acid-base balance in the blood
- Provides easily absorbable energy
- Antioxidants strengthen the natural resistance
- 2 years shelf life in dry and closed package

Packaging:

- Sachets of 80 g
- 20 sachets per case
- 10 kg bucket

Application:

Mix ReviLyt in water or milk (35-40°C) twice a day for 1-3 days in the following inclusion:

- **Calves and foals:** 80 grams of ReviLyt per 2 litre of water or milk
- **Piglets:** 80 grams of ReviLyt per 2 litre of water per 4-6 piglets
- **Lambs and kits:** 40 grams of ReviLyt per 1 litre of water per 25 kg body weight

Consumption:

10 kg ReviLyt are enough for approx. 125 allocations
