

NoxiFerm™

Natural growth enhancer

NoxiFerm is a natural growth enhancer to be mixed in feed for poultry, pigs and other monogastric animals. NoxiFerm is a unique blend of sodium gluconate and natural flavouring compounds of botanical origin with a high content of polyphenols.

NoxiFerm contains:

- Sodium gluconate, sodium salt of d-gluconic acid
- Unique mixture of flavouring compounds with high content of polyphenols, which is more than 3 times as potent as antioxidant, than pure synthetic vitamin E.

Trial results confirm the effect of NoxiFerm:

University trials with broilers and piglets document a significant improvement in production results by using NoxiFerm. Additionally, farmtest of NoxiFerm in feed for sows has shown good effect on feed intake in periods with heat stress.

Benefits and effect:

- Promotes production of SCFA in the intestine
- Increases intestinal villous height and crypt depth
- Stimulates the immune system
- Reduces heat stress problems
- Supports high feed intake in hot environments
- Improves animal performance and welfare

Application:

Piglets below 25 kg

Growers and Finisher pigs

Gestation / Lactation sows

Calves (milk feeding)

Broilers: • Until day 21

- From day 22 to slaughter

Layers

Other animals

2.5 kg /1000 kg of complete feed

2.0 - 2.5 kg /1000 kg of complete feed

2.5 kg / 1000 kg of complete feed

2.5 kg /1000 kg of milk replacer

2.0 kg /1000 kg of complete feed

1.0 - 2.0 kg /1000 kg of complete feed

2.5 kg / 1000 kg of complete feed

1.0 - 2.5 kg /1000 kg of feed

Consumption:

1.0 - 2.5 kg per 1000 kg of feed, depending on animal species

Packaging:

- 25 kg bags
- 1000 kg big bags
