

# DefloSan®

## DefloSan® is a pure and natural hygiene powder for livestock

A powerful solution for maintaining a clean and hygienic environment in livestock barns. It absorbs moisture, prevents bacterial growth, and keeps the bedding dry, reducing the risk of infections and skin irritations. DefloSan® is proven to lower ammonia by 95% and bacteria by up to 96% for up to 48 hours, making it a reliable solution for farm owners.

### Characteristics

- Improves the hygienic conditions for all types of livestock
- Guarantees a clean and dry bedding environment
- Inhibits the growth of harmful bacteria
- It inhibits the growth and reproduction of flies, fly larvae, and other insects
- Reduces odors and refreshes the barn environment
- High ammonia fixation

### Storage

Must be stored in dry conditions. Shelf life is 36 months from the date of manufacture in original, unopened packaging.

### Packaging

20 kg bags or big bags

### Composition

DefloSan® contains highly absorbent minerals that binds ammonia and natural botanical compounds with good antimicrobial effect for improving animal performance and overall environment in livestock barns.

### Instructions for use

DefloSan® is applied at 50 to 150 g/m<sup>2</sup>. Repeat as needed.

#### WITH PIGS

- Farrowing pens: daily as needed, dosed with 50 grams per m<sup>2</sup>, or as needed. This is to ensure a clean and dry environment for the animals in and around the houses, as well as a solid floor.
- Sows, sections with piglets, fattening pigs, and other sections: 2-3 times per week, with a dosage of 50 grams per m<sup>2</sup>, or as needed to ensure a clean and dry environment for the animals.

#### WITH CATTLE AND CALVES

- General: 2-3 times per week, a dosage of 50-100 grams per m<sup>2</sup>, or as needed to ensure a clean and dry local environment.

#### WITH POULTRY

- Dosed with 150-250 grams per m<sup>2</sup> before placing the animals, this dosage lasts the entire period until the next shift. After dosing can be done at any time with 50-100 grams per m<sup>2</sup>.
