

A good gut feeling with functional feed

Egusin[®] Gastric365

Pellets

Supports optimal gastric
function and the general
health in horses and foals

R2 | Agro

PERFECT SOLUTIONS

Through innovative approach, knowledge and safety R2 Agro develop and improve functional feed products for professional and passionate horse owners who aim at perfection – with a good gut feeling.

Egusin® Gastric 365 is a mineral supplement that can be used as part of the horse's daily feeding to support natural digestive processes. It is developed to complement the horse's daily nutritional needs and promote digestive functions during periods of stressful situations.

Egusin® Gastric365 contains

- Coral limestone (Lithothamnium), which is a product of coral algae. Coral limestone is a natural alkaline buffer that maintains an optimal pH in the stomach. Coral limestone has also shown positive effects by contributing to normal intestinal function and normal bone structure.
- Natural plant-based antioxidants.
- Hydrolysed yeast from *Saccharomyces cerevisiae*. The hydrolysed yeast supports gastric fibre digestion and contributes to the maintenance of a natural high pH in the stomach.

- Cabanin® CSD, a R2 Agro product with a high antioxidant activity. Cabanin® CSD consists of selected parts of fruits and chestnuts, known for their polyphenol content. The high content of natural antioxidants in the patented product reduces oxidative stress and additional need for vitamin E and C.

Benefits and effects

- Developed to support daily balanced digestion
- Contributes to normal intestinal function and general well-being

- Promotes efficient digestion that supports the body's metabolism
- Contributes to the maintenance of normal bone structure

Application

50-100 g daily divided into the morning and evening feed, depending on the need. Young horses and foals up to 300 kg are administered 50% of the above recommended quantity.

Packaging

- Buckets of 3 kg
- Bags of 15 kg

3 steps to a healthy stomach, regardless of the level of performance
